

GET A GRIP ON YOUR WIRELESS NETWORK FOR

LESSES

Predictive **PLANNING AND CERTIFICATION OF WIRELESS NETWORKS** is getting more important. Effective **TROUBLESHOOTING** will be big part your daily activities, in depth **ROUTE CAUSE ANALYSIS** will be critical for fast problem solving to maintain end user satisfaction. Time to take your (wireless) network tools and methods to the next level! For both the wired and the wireless,

**UP
TO 25%
DISCOUNT**

we've engineered high quality tools to help make your work easier, and your clients' wireless networks perform at their best. NOW, we've got some great deals for loyal customers. If you're already using Fluke Networks, you can get up to a **25% DISCOUNT** when you invest in AirMagnet Mobile products!

AIRMAGNET MOBILE SOLUTIONS – Imagine maximum bandwidth, thorough wireless signal coverage, and high quality connectivity that helps business critical applications run smoothly. That's what you get with AirMagnet wireless products. Monitoring, analysis, and Wi-Fi troubleshooting become a piece of cake. Fluke Networks delivers the most accurate wireless network solutions for designing, deploying, and optimizing 802.11 a/b/g/n (and now also 11ac) wireless LANs for maximized performance, security, and compliance. Expert planning and design tools ensure that your customers' wireless networks are built to accommodate the highest capacity of users, but also that these networks meet the needs of demanding wireless applications and perform optimally – even in the most challenging RF environments.

AirMagnet Products

WLAN Design & Analysis Suite – Delivers the most powerful tools available to solve every problem in the wireless network, from planning and deployment to ongoing troubleshooting and security monitoring. This suite includes AirMagnet Survey PRO (which includes AirMagnet Planner), AirMagnet WiFi Analyzer PRO, and AirMagnet Spectrum XT.

Survey/Spectrum XT bundle – Bundle of the AirMagnet Survey Pro/

Planner and Spectrum XT. Also includes our Planner software. Calculate the ideal quantity, placement, and configuration of APs for a successful WLAN deployment. Perform in-depth RF analysis with real-time WLAN information for quicker and more accurate troubleshooting of performance problems.

Survey Pro – The industry's most accurate wireless site survey solution for planning and designing 802.11 a/b/g/n/ac wireless LANs for optimal

performance, security, and compliance. This wireless site survey tool calculates the ideal quantity, placement, and configuration of APs for a successful WLAN deployment.

WiFi Analyzer Pro – The industry standard tool for mobile auditing and troubleshooting enterprise Wi-Fi networks. AirMagnet WiFi Analyzer helps IT staff quickly solve end-user issues while automatically detecting security threats and wireless network vulnerabilities.

Now with 802.11ac support!

Spectrum XT – The first and only professional spectrum analyzer solution that combines in-depth RF analysis with real-time WLAN information for quicker, more accurate performance problem troubleshooting. This combined view of “RF interference impact analysis” on the network’s overall performance helps to pin-point the root-cause of those problems.

How it works

Own one of the below listed products (mainframes only)? Then you're eligible to get a discount on the purchase of an AirMagnet Mobile product from Fluke Networks: DSX-5000 CableAnalyzer Series; DTX CableAnalyzer Series; CertiFiber Pro Series; OptiFiber Pro Series; MultiFiberPro Series; NetTool Series II Inline Network Tester; LinkRunner AT Network Auto-Tester. You will get the maximum discount of 25% only if you buy a Gold Support contract. With Gold Support, you will get access to live 24 x 7 technical support, free software updates/upgrades, hardware support, web based training and more.
