Fluke Networks
6920 Seaway Boulevard
Everett, WA 98203

Attention: Carolyn Carter
Product Manager, Certification Tools

Dear Carolyn,

PANDUIT Corp. had completed its evaluation of the Fluke Networks Versiv DSX-8000 CableAnalyzer™.

Testing in our laboratory found a high degree of correlation between the test results obtained with this field tester and the laboratory Network Analyzer as shown in the NEXT example below:

PANDUIT is pleased to endorse and recommend the DSX-8000 Cable Analyzer by Fluke Networks for use in field-testing for PANDUIT's copper connectivity solutions with the following requirements:

- Permanent link testing with DSX-PLA804 test leads,
- Channel testing with DSX-CHA804 test leads.
- Alien Crosstalk testing with either DSX-CHA804 or DSX-PLA804 test heads/leads

PANDUIT also accepts the test results provided with this tester for all PANDUIT's warranty programs.

Sincerely,

Michael Bergman

Enterprise Engineering Lab Manager

Panduit Corp.
